POLAND

CONGRATULATIONS POLAND and the MATIO FUNDACJA for gaining access to the Vertex range of drugs for Cystic Fibrosis.

This is a wonderful outcome for the CF Community in Poland and equally a big thank you to VERTEX for their hard work and responding in a very professional way of working with Matio to make this happen.

Other counties need to work with Vertex, be stern and patient, maintain the engagement and work together and good things should follow.

Hope this brings better health for CF people in Poland, and again congratulations to all involved, a great outcome.

Congratulations to all,

Yours in health,

Terry Stewart
President
Cystic Fibrosis Worldwide
